Adding an order with customer and order details

The screenshot shows a web application interface for adding an order. At the top is a dark navigation bar with a logo, 'DASHBOARD', 'PRODUCTS', 'ORDERS', and a 'LOG OUT' link. The main form is titled 'Customer and Order Information' and is divided into three sections: 'Customer Details', 'Address Details', and 'Order Details'. Below these is a 'List of Orders' section with a product list and a summary of the current order.

Customer Details (1): Includes input fields for 'First Name *', 'Last Name *', and 'Phone Number *'.

Address Details (2): Includes input fields for 'House No *', 'Street Address *', 'Barangay', and 'Landmark *'.

Order Details (3): Includes a text area for 'Additional Instructions', a 'Delivery Date' field with a calendar icon (showing 05/01/2022), and a yellow 'SUBMIT ORDERS' button.

List of Orders (4): A table with columns 'Color', 'Qty', 'Price', and 'Unit Price'. It lists 'Shirts (L) L-XXL' in green for P 100.00 each, totaling P 500.00.

Product List (5): A list of products with 'ADD' buttons. The list includes: 'Shirts (L(Size) - L-XXL(Category)) green (8 pcs)', 'Pants (M(Size) - S-L(Category)) Black (6 pcs)', 'Green (14 pcs)', 'Special Shirt (M(Size) - S-L(Category)) Yellow (31 pcs)', 'Green (33 pcs)', and 'Pink (33 pcs)'.

Order Summary (6-8): A section showing the total amount and options for customization. It includes: 'Amount: P 500.00', 'Regular or Rush' selection (with 'Rush' selected and a 'Rush Fee' of P 100), 'Customization Fee' (P 100), 'Discount' (P 50), and a final 'Total amount: P 650.00' with a 'CLEAR ORDERS' button.

1. Input the customer details including the first name, last name, and phone number.
2. Input the address details of the customer including the house no., street address, barangay, and landmark.
3. Input the order details such as the additional instructions and the delivery date.
4. When clicking the search product, the admin can search products to be ordered.
5. Upon clicking “Add”, the system will automatically add the products added to the list of orders.
6. The user will choose either regular or rush for orders to be made. If “Rush” is selected, an input field for the rush fee will be displayed.
7. Any additional customization fee can be input here to add to the total amount to pay.
8. Discounts can be added here to automatically reduce the amount to pay.

- Upon clicking the “Submit” button, all information entered in the form and products added to the list of orders will display on the pending orders table.

Update the order status

1. Click on the “Ready to be delivered” button to update the order status.

The screenshot shows a dashboard with a top navigation bar containing 'DASHBOARD', 'PRODUCTS', 'ORDERS', and a 'LOG OUT' link. Below the navigation bar, there are tabs for 'PENDING', 'READY TO BE DELIVERED', and 'DELIVERED'. The 'PENDING' tab is active. The main content area shows a table titled 'Pending Orders' with a total amount of ₱ 750.00. The table has columns: Full Name, House No & Street Address, Barangay, Landmark, Orders, Total Amount, Phone Number, Regular/Rush, Month, Date, Year, Delivery Date, and Set Order Status. The first order is for 'Pen Shawn' with a total amount of 750. A red box highlights the 'READY TO BE DELIVERED' button in the 'Set Order Status' column for this order, with a '1' next to it.

Search, print, and apply filters on the pending orders

1. Click on the search icon. Enter any details of either the customer or the products ordered by the customer.

This screenshot shows the same 'Pending Orders' table as before. A red box highlights the search icon in the top right corner of the table, with a '1' next to it. A '2' is next to the print icon in the top right corner of the table.

2. Click on the print icon and this is what it will display. It allows the user to choose a printer, the number of copies, layout, and pages they want to print
3. Clicking on the “button” print allows the user to print it to PDF.

This screenshot shows a print dialog box. The dialog box has a title 'Print' and a subtitle 'Total: 1 sheet of paper'. It contains sections for 'Printer' (with a dropdown menu), 'Copies' (with a text input field), 'Layout' (with radio buttons for 'Portrait' and 'Landscape'), and 'Pages' (with radio buttons for 'All' and 'e.g. 1-5, 8, 11-13'). A red box highlights the 'Print' button at the bottom, with a '3' next to it. A '2' is next to the printer selection dropdown, and a '3' is next to the 'All' page selection radio button.

4. Click on the icon to filter the column

Filter reports

1. Click on the filter icon

The screenshot shows a table titled 'List of Orders Reports'. In the top right corner, there is a filter icon (three horizontal lines) which is highlighted with a red circle and the number '1'. The table has columns: Full Name, House No & Street Address, Barangay, Landmark, Orders, Total Amount, Phone Number, Regular/Rush, Month, Date, Year, Order Status, and Delivery Date. One row is visible with data for 'Pen Shaven' and 'Special Shirt M'.

2. Select options for filter to be applied on the table. Clicking the reset button will reset this table back to default.

The screenshot shows the same table as before, but with a filter dropdown menu open on the right side. The menu is titled 'FILTERS' and has a 'RESET' button. It contains several filterable fields: Barangay, Landmark, Regular/Rush, Month, Date, Year, Order Status, and Delivery Date. Each field has a dropdown arrow. The number '2' is placed next to the filter menu. The table data is partially visible behind the menu.

Pagination of the reports

Scrolling down to the last page, the user may see the pagination for the table.

The screenshot shows the pagination controls at the bottom of the table. It includes a 'Jump to Page:' dropdown menu (labeled '1'), a 'Rows per page:' dropdown menu (labeled '2'), and a summary of the current page and total rows (labeled '3'). The summary shows '1-10 of 31' rows, with navigation buttons for previous and next pages.

1. This allows the user to jump to a specific page
2. This allows the user to choose how many rows to display on a page. The options are 10, 15, or 100 rows.
3. This allows the user to know what page they are on as presented with 1-10 of 31 rows. The “<” allows the user to go back to the previous page, and the “>” button allows the user to go to the next page.
